INTRODUCING GREEN CROSS GROW

Keep your knowledge fresh!

We are excited to introduce **Green Cross Grow**, an online continuation of your training course. Specifically designed to keep your knowledge and skills up-to-date.

It consists of **carefully crafted micro-modules** that reinforce what you've learned and ensure you stay current. By providing regular, structured learning in small, manageable chunks, **Green Cross Grow** helps learners retain information more effectively and stay confident in applying their skills in real-world scenarios.

HOW DOES IT WORK?

- **Monthly micro-modules** (5-15 minutes each) are released automatically based on your course schedule.
- **Engaging content** with interactive questions to reinforce learning.
- **Accessible through our Digital Assessment Platform.**
- **Track your progress** and see how many modules you've completed towards obtaining 100% completion.
- **Receive personalised reminders** and notifications to help you stay on track with your learning journey.

KEY BENEFITS OF GROW:

- Keeps skills fresh with bite-sized learning.
- Ensures ongoing engagement and knowledge retention.
- Provides structured learning without overwhelming your schedule.
- Year 2 and Year 3 of Grow are available for continued development.
- Contributes towards Annual Refresher Certification (HSE recommendation)

GREEN CROSS GROW SUPPORTS YOUR ONGOING SUCCESS!

Learning isn't just a singular event but a continuous journey. **Green Cross Grow** isn't just a training extension –it's your key to staying sharp, adaptable and ahead of the curve.

**TOGETHER.
SAVING LIVES.**
